

RE: Low Power FM broadcast service

I am a regular listener of a commercial-free, listener supported, family friendly Christian radio station (Air 1) which is broadcasted via FM translators. I am opposed to LPFM stations taking priority over current FM stations. If this were to happen, my family and local community would lose a valuable service--a family friendly, positive, encouraging radio broadcast which has changed the lives of thousands of people across the nation and world. Please don't take away my right to listen to family friendly broadcasting! Please don't expand the service of LPFM stations. - Tifani Rule, Camas, WA
